Kansas City, Mo., June 11 .- [Spe cial.]-The consensus of many esti mates today by political observers as to the first ballot next Thursday on

the presidential nomination is: n ......

The action of Chairman Butler in giving up the fight for Coolidge may add to the Hoover vote even at the outset. The number required to nominate is 545, 8 more than are given Hoover in the above forecast. It is likely the vote for Coolidge will shrink to the vanishing point and Hoover may get 600 votes on first ballot.

#### BY ARTHUR SEARS HENNING. [Chicago Tribune Press Service.]

(Pictures on back page.) Kansas City, Mo., June 11 .-(Special.) - Herbert Hoover wins the Republican nomination

for President. On the eve of the assembling of the Republican national convention tomorrow, William M. Butler, chairman of the Republican national committee, after a conference with Secretary of the Treasury Mellon, gave it as his opinion that Hoover will be

With the current of events running swiftly in favor of Hoover it is probable that the Pennsylvania delegation will vote tomorrow to support the secretary of commerce and that Mellon will go along. Such action would assure the nomination of Hoover on the first or second ballot.

#### Gives Hoover 537.

Although the coalition aga Hoover is still fighting de tely to hold its lines and the last ditch Coolidge drafters are still ooking to Mellon to stave off the nation of the commerce secretary, the rumblings of the Hoover band wagon are waxing louder and louder. One of the ranks of the allies admitted after hearing of the

#### Vermont Quits Move.

The Hoover band wagon made its appearance earlier in the day when it transpired that numerous delegates were going over to the commerce secretary. Then Vermont abandoned the movement to draft its native son, Calvin Coolidge, and announced that it would second the nomination of Hoover.

The Hoover managers, sure of victory, turned to negotiations over the second place on the ticket. Ralph Cole of Ohio was sounded to ascertain if Vice President Dawes would accept renomination as running mate to Hoover. Cole said that Gen. Dawes would not accept. When Ohio caucused the 20 anti-Hoover delegates recorded themselves as five for Coolidge, ten for Lowden, three for Curtis and two for Hughes.

Mr. Mellon Reticent.

Mr. Mellon reached Kansas City this afternoon and went into conference with numerous leaders for the purpose of making up his mind as to his policy.

At the close of the conference, the following statement was issued for Mr. Mellon through Senator Reed of "In view of the fact that the Pennsylvania delegation will meet in con-ference tomorrow morning I do not feel justified in making any statement

Vare Cooks Up Trouble.

Mr. Mellon came to town in a private car attached to one of the three trains bearing the Pennsylvania delegation. There was an enormous crowd at the station eager to catch a glimpse of the great man who was supposed to hold the balance of power between the Hooverites and anti-Hooverites in the hold the balance of power between the Hoverites and anti-Hooverites in the convention and thereby the power to name the candidate who may be the least President of the United States.

#### An Apology and AN EXPLANATION

Quite naturally we anticipated a tremendous response to the announcement of our REMOVAL SALE that started yesterday. We believed that the augmented sales organization was adequate to serve every one who responded to our sale announcement. We failed to accurately estimate how many people were actually awaiting this event.

To those who failed to secure immediate service we extend another invitation. Our sales staff has again been greatly augmented, and we know confidently that every one can now be served immediately and entirely satisfactorily.

Predicts U. S. Prosperity Will Continue.

BY PHILIP KINSLEY.

Washington, D. C., June 11 .- [Spe cial.]-On the eve of the opening of the Republican convention President Coolidge tonight gave his semi-annual report on the business of government as it has been handled during the last few years and outlined his policies for the next six months. Secretary of Commerce Hoover, who may have the job of carrying out these policies, was n the platform with him.

on the platform with him.

There was nothing in his address to indicate to the politically alert among his audience of department heads gathered in Memorial hall that anything unusual was afoot, or that he contemplated anything but a carehe contemplated anything but a careful preparation to turn over the financial side of his office in sound shape at the end of his term next March. He looks ahead serenely to a continuation of Republican fiscal policies in 1929 and 1930.

While declaring that the long era of prosperity in this country is on a sound basis and has not yet reached its flood, the President issued a warning to the country to cut down state and unicipal expenses as one mean to prosperity and a tendency which cannot continue without disas. He impressed upon the business heads of the government that the government must be balanced for 1929, even though present estimates might forecast a deficit.

The President's address will make excellent campaign material for the Republican nominee to be chosen at Kanssa City this week.

Greatest Benefit to People. Long Era of Prosperity.

Greatest Benefit to People.

"It has been my endeavor," he said, "so to manage the national finances as to secure the greatest benefit to the people. I have rejoiced in keeping down the annual budget, in reducing taxes, and paying off the national debt, because the influence of such action is felt in every home in the land."

The people he said, must furnish a short space of time the government.

in the land."

The people he said, must furnish their own prosperity. It cannot be handed down to them by the government could cut its tax rates to such an exment. And when they have it they must rise above it in spiritual outlook. "Prosperity," he said, "is only an instrument to be used, not a deity to be wershined."

"It is inconceivable that in such a short space of time the government could cut its tax rates to such an exmentent. Yet that has been done. Millions of individuals in the lower brackets have been entirely stricken from the tax rolls. Personal exemptions for individuals and heads of the wershined." families have been greatly increased

"Stabilization and a feeling of security have been the primary factors in the great upward swing of American industry and commerce since 1921."

The tax question, he declared, has been approached from the angle of requiring no more from the people than given to earned income. War taxes and nuisance taxes have been repealed. Business has been freed of many hampering and uneconomic restrictions. The prosperity of today can be directly attributed in a large measure to the lessening of the burden of federal taxes.

#### LAWYER'S WIFE **ACCUSES WIDOW** IN LOVE SUIT

#### Attorney Admits Being Together in Flat.

Edward C. Higgins, for many years professor at the Kent College of Law and now on Corporation Counsel amuel Ettelson's pay roll, lived in the same apartment with his former law partner's widow, Mrs. Albie C. Dejmek, 543 Addison street, the woman's attorneys admitted yesterday before erior Court Judge Joseph David. But the relationship was purely platonic, they insisted.

Mrs. Helen M. Higgins, estranged wife of the lawyer, insists that the relationship was that of sweethearts, and is suing Mrs. Dejmek for \$50,000 on an alienation of affections charge. A jury is to decide the question, probably today.

Tells Story on Stand.

Mrs. Higgins, who is 57 years old and was married in 1898, told her yesterday from the witness Mrs. Dejmek, about 30 years old, the widow of Ludwig R. Dejmek, who died in 1920, will probably testify today. Mr. Higgins, barred by law testifying, did not attend the trial. He is 61 years old.

The wife told of trailing her hus-

band several nights in the spring of 1925 from his law school to an apart

ment at 712 Waveland avenue, where Mrs. Dejmek was living. "I looked in the window and saw her prepare his lunch." Mrs. Higgins testified. "It was long his habit to eat after the night classes. Then I siw him pick up a newspaper, smoke and read while she talked to him, both laughing and joking. Later they turned off the lights."

Leads Raid on Flat.

A few nights later, about 2:30 a. m. she led a raid on the apartment. With two policemen and two private detec-tives, she entered the house, she testi-fied, and found Mrs. Dejmek in a nightdress and Mr. Higgins in a bathrobe Mrs. Dejmek will be able to explain this situation to the jury, according to her attorneys, Berthold Cronson and Milton Smith. This, in substance, is her story, the lawyers said:
Mr. Dejmek, on his death bed, advised his wife to look to Mr. Higgins

for counsel as she would to a father. After his death, she continued to work in the law office, receiving a per cent of the fees collected on business turned over to the firm by her hus-band. And there was a father and daughter affection. In 1925, Mr. Higgins was separated

from his wife. He was living at the Palmer house. When the old hotel building was being razed he moved to her apartment, occupied a day bed and paid her for his lodging and for his coffee and toast breakfasts, the lawyers say.

TO PRISON UNDER DRY LAW.
Frank Eichler, owner of the Chateau Des
Plaines roadhouse of Lyons, Ill., was sentenced yesterday by Federal Judge George
T. Page to serve eight months in jail and
fined \$1,000 on charges of violating the prohibition law.

#### After Many Agents Failed Tribune Want Ads Turned the Trick for Them!

"We needed a new home but had been unsuccessful in selling our old one. We had tried many agents but they had not been of any help. Then came the time when we found the very bungalow we wanted and had to buy it at once. We placed an ad in The Sunday Tribune and by 11 o'clock Sunday morning a couple called, put down a big deposit and we were free to buy our new home."

MRS. GEORGE M. CLARK. 2954 N. Kilbourn Ave.

COR many months the George M. Clarks wanted to move. But first they had to sell the house they were living in; so impatiently they waited while agent after agent tried to find a buyer for them. Then, to make matters worse, they stumbled accidentally on the very bungalow they wanted, and found themselves in a real predicament!

To get the bungalow required quick action; this means they had to sell their own place immediately. In des peration they turned to Tribune Want Ads, and by 11 o'clock the day their ad appeared, they got action. The deal was put through, and with the large deposit they received they were able to make the first payment on their new home.

If you have any properties for sale, let the Clarks' experience help you . . . avoid delays and long waits by offering the property in a market where you can mmediate action. The Tribune's vast market opens to you the moment you take the telephone and call

For the first few days of the marathon, which began at noon a week ago last Saturday and at 3 o'clock this morning was entering its 232d hour, the rest rooms were scenes of wild confusion. Trainers rushed hither and thither with a great deal of bustle and clatter, solicitous relatives and friends crashed the gate for a chat with the dancers, and there was great ado.

The sum total of contenders for the title of world's champion marathon dancers was narrowed last night to four couples, as the Collseum contest entered its final stages.

The addition of a \$500 fourth prize and the increase to \$750 for the third prize, announced at midnight, assured each of the remaining couples a goodly purse. And the dancers settled grimly into a renewed display of their staying qualities.

#### WANTED: TRACTION LEADERSHIP.

At the moment, nothing is being done to solve Chicago's transportation problems. The reason is lack of leadership. The city council's transpor tation committee, which has occasionally produced a genuine leader, may do so again, but at presen the committee members are floundering about. It is still possible that a traction Moses may be found in the bulrushes of the transportation commit-tee, but there is no use exaggerating the hope

The question is not one of pollution

by unburned gas or by carbon monoxide, soot, or other products of incom-plete combustion. The burner they experimented with was a good type. No gas leaked through it or around it. It was also of a good type in that com-bustion was complete. The gas was burned into carbonic acid and water, and nothing was taken from the air except oxygen. The pipe did not dis charge carbon monoxide, nor unburned carbon, nor smoke, nor any other harm-ful chemical, into the air.

Nor was it a question of overheating the air or of poor air conditioning. Reduced to the simplest terms, Dr. hurst's experiment proved that stoves must have vents or pipes. They mus not be so constructed that the products of combustion discharge directly into the room air. Such products are harmful even though they do not look or smell like smoke, do not cause the eyes to water, and do not soil the curt They are harmful even though there is no odor of unburned gas and che analysis fails to show an excess of car-

In this experiment rats were made to breathe air polluted in this way for three or four months. The death rate among these rats was several times the normal. The rats did not die from nia. However, when rats that had been breaththis polluted air were injected with a standardized pneumococcus culture they died off with great rapidity. They seemed to have much less capacity for resisting pneumonia than is usual

Dr. Hayhurst started out to find whether breathing air containing slight excesses of carbon monoxide tended to lower resistance to pneumonia. For instance, whether men who work in garages, around automobiles, and in rooms heated by stoves and gas burners are more subject and have increased susceptibility to pneumonia. But his experiment never reached that phase of the question. He will extend his

WAR NEWS.—The French troops fighting southeast of Montdidier have turned upon the Germans in a vio-lent attack and administered a severe defeat to the enemy over a front of about seven and one-half miles be-tween Rubescourt and St. Maul. The village of Belloy, Genlis wood and the heights rising between Courcellas and Mortemer were recaptured by the French, and in addition to the infliction of heavy casualties on the enemy, Gen. Foch's men took more than 1,000 prisoners and also captured guns. In the immediate center of the line be-tween Montdidier and Noyon, where the Germans had been able to extend the apex of their drive to Antheuil, the enemy also was attacked and driven back from a half mile to nearly two miles at some points. #### THE LAKE FRONT AIRPORT. Chicago, June 9.- Now that your paper

has exposed the aviation correspondence schools, why not do something really constructive by exposing the true facts of the plan to loot the taxpayers of \$5,000,000 or more to build a lake front To get the whole story you only need

send a reporter out to do the following things:
Try and find one air line operator, National Air Transport, Boeing com-pany, Robertson, or Ford, now using the municipal field, who will agree to move operations to the lake front if an

airport is built there.

Try and find one active air pilot ployed by any of the established air lines, or one chief pilot or instructor of any aviation school now operating in Cook county who will agree to operate an airplane out of a lake front airport if

one is built. They won't do it, for every air line operator and every trained pilot knows would be suicidal to try and maintain a regular air service into and out of a lake front field. And they won't hesitate to tell you why, and to tell you that any expenditure on a field there is a pure waste of the people's money.

THE GAS TAX REFUND. Peoria, Ill., June 8.-Since the passing into oblivion of the late unlamented gas tax numerous suits have been started by the various motor fuel distributors

against the state officials in whose po session the funds realized now are. If successful these litigants will obt several million dollars as a windfall pure and simple. Any car owner knows the true nature of the incidence of the gas tax. The filling stations kept the record clear; they itemized the am per gallon paid by the car owner fuel and the amount paid as tax. Any car owner will recall the signs re-

ferred to.

The only person who seems to have misapprehended the nature of the incidence of the gas tax is no less an individual than Mr. Justice Thompson of our Supreme court, who wrote the opin-ion declaring the tax unconstitutional. From a reading of his opinion it appears that he actually believes that the big hearted oil distributors of this state paid the tax themselves. # UPHOLDS SENATE QUIZ AUTHORITY IN STEWART CASE

Co

### Judge Rules Unanswered Questions Pertinent.

[Chicago Tribune Press Service.]
Washington, D. C., June 11.—[Special]—In a sweeping ruling today, Justos Frederick L. Siddons, presiding in the trial of Robert W. Stewart, chairman of the Standard Oil company [Indiana], for contempt of the smale, upheld the authority of the scale's Teapot Dome committee to investigate the famous Continental company deal.

The court ruled the two questions as all man refuse to answer last the answer were pertinent to the in-

As a result, the jury, when it gets
the case late tomorrow, will have
nothing before it except the uncontested facts that Stewart appeared
before the committee and after having
sefore the committee and, after having
close what he knew of the division of
the Continental company's profits.

Parallels Sinclair Ruling.

Similarly restricted by the ruling of Justice William Hitz, a jury found Harry F. Sinclair, stellar figure in the Teapot conspiracy and a participant in the Continental deal, who defied the senate committee in the original oil scandal investigation, guilty of contempt of the senate. He was sentenced to serve three months in Jail and pay a fine of \$500. The maximum sertance which may be imposed on Stewart, if found guilty, is one year in jail and a fine of \$1,000.

Stress Quorum Contention.

A last minute effort was made by Stewart's attorneys today to make good their contention that less than a quorum of the committee actually was present when the Standard Oil chief refused to answer Senator Nye's questions. Their appeal for a reconsideration of an earlier adverse ruling on the point was taken under advisement by Justice Siddons.

In disposing of the defense motion for an instructed not guilty verdict, Justice Siddons asserted the resolution authorizing the revival of the Teapot Dome investigation showed it was "in the exercise of a legislative function" and that the probe was not, as contended by Stewart's attorneys, a usurpation of judicial functions or an avasion of private matters.

There can be no question, the justice ruled, of the committee's right to ask Stewart if he knew how the Continential company's profits had been divided or had discussed the subject with Sinclair.

Mr. Whelpley's motive is not hard to understand. He is out to study the city's night life. He said:

# Specifications of Our 60" Flat Top Mahogany Desks at \$51.20

Our office furniture values lead in every price class—60-inch flat top desks from \$31.75 to \$400.00. But we believe the one here-in described to be the greatest value in today's market. It has exceptional distinction and utility, and is priced low enough to be an economy.

The tops, panels and drawer fronts are genuine mahogany—the legs and rails being made of quartered red gum, finished beautifully to a perfect match.

Writing beds are of full 1¼-inch thickness, of 5-ply built-up construction, with edges banded so as to show figured wood on all surfaces. Legs are 1¾-inch square, from solid stock, rounded on the inside to eliminate sharp edges.

The sanded, perfectly finished drawer interiors are selected hardwood, extra heavy construction, dovetailed front and back, and with 3-ply hottoms framed on all sides. The drawers have cast brass pulls. Locks are high grade and patented non-sticking. Bottoms of all pedestals are fitted with metal dust and vermin-proof panels.

All we ask is an inspection. This desk will exceed your expectations of value.

Same model can be had in oak at \$48.00, in walnut at \$52.80. Also in all sizes, 42-inch to 60-inch. Double and single pedestal typewriter desks, tables, phone stands and files can be had to match.

# Problem

"Most of us have to spend the major part of our waking hours at work. Besides, our work places bounds around our use of leisure. We cannot go very far toward making life satisfying unless, within limits, we can make work satisfying. The human problem in industry is to put satisfaction into work."

This quotation is from an article by Willard E. Hotchkiss, Chairman, California Economic Research Council, in Management Review.

The success with which the Standard Oil Company (Indiana) has worked out the "human prob-lem" is perhaps due to the fact that this Company has always considered it the most important problem in industry.

Big business is made up of men and machines. The machines receive expert mechanical care. In the Standard Oil Company (Indiana) the human part of the business receives the best of human

The employes of the Company work together under conditions that make them enjoy their work, that make their lives useful and full of

Each of them has the opportunity of doing the job to which his energy and ability entitle him of utilizing his powers to greatest advantage of earning a fair reward for his work.

Each employe has the assurance of his Company's interest in his welfare. He is substantially encouraged if he wishes to invest his savings in stock, to become part owner of the Company. He is certain of sympathetic and practical help in time of trouble.

The many measures devised for the benefit of employes are in no sense philanthropic.

Employes of this Company, by their loyal work, earn the consideration shown them. They give all their working hours, their energy and ambition to the Company. They work together as one man united in one great purpose—to serve the people of the Middle West.

The success of the Standard Oil Company (Indiana) is due largely to its employes and the spirit in which they work. Probably you can give proof of this statement.

Why do you stop at Standard Oil Service Stations? Because you know the products you buy there are always dependable—made by men who work with sincerity and faithfulness, satisfied only with the best they can do. Because you receive there the attention of men skilled to serve you— who take pride in their skill and pleasure in every opportunity of being helpful.

This Company succeeds in serving the people of the Middle West to their satisfaction because it recognizes the human problem in industry and solves it by making work satisfying—making life satisfying—for more than 26,558 men and women who know the self-respect that comes from earning all the privileges they enjoy.

Two o'clock in the morning is a scheduled hour for the modern baby's bottle. At that time, a thousand mothers, reaching for familiar switches, find the electric company still up and dressed. ready to give them as much light as they need.

Giving you light at two in the morning is only one instance of your electric company's continuous and unfailing service. To provide that service, a considerable investment has been made in equipment that is used only a short time each day. Men are working from dusk till dawnto meet any emergency that might interrupt the delivery of electricity when and where it's needed.

Since 1913, in spite of improved and extended service, the cost of electricity has dropped an average of nearly 15 per cent. The fact is significant of your electric company's aim to give you every advantage of improved methods and equipment.

Since Westinghouse first gave the world the alternating current that made possible our present use of electricity, this company has worked in cooperation with your electric light and power company to develop equipment that makes possible the most efficient generation, transmission, distribution and use of electric power throughout your city.

Who spread the welcome news that "Hires Milk Shake" is a delicious combination?

Some one with a tired appetite somewhere switched from the ordinary and asked for "Milk Shake flavored with Hires."

That some one told some one, and now the news has spread like wildfire all over the land, from coast to coast.

When you ask for a "Hires Milk Shake" you'll get fresh milk with Hires as flavoring syrup instead of the usual chocolate, or vanilla. You get a milk drink entirely different in flavor.

The blended flavor is deliciously different, as one trial will prove. It gives variety. It ends monotony.

Terre Haute, Ind., June 11 .- [Special.] - Slick, shiny mud puddles thickly scattered over fields between Richmond and Terre Haute reflect the Hoosier farmers' gloomy outlook for corn and small grain crops this season. Hot weather and pests are waiting immediately around the corner to jump onto the late scrawny crops. The weather man would have to work a miracle to pull any of the main grain crops through where they would yield a satisfactory return.

In the first nine months of this repa-ations year, which began last Sept. , the German railroads provided a otal of \$151,000,000 as their share the payment of the Dawes an-

The payments this year bring the total sum paid under the provisions of the Dawes plan—not including the payments made from 1913 to 1924—up to \$1,098,500,000. This year France received \$180,000,000, and the United States \$9,000,000, for expenses incurred by the army of occupation in Germany.

One is its value in dollars and cents—as an allowance on the price of a new car.

The other value is measured by the happiness of your family.

If you keep your present car when you buy your new car-instead of trading it inboth your needs and theirs are provided for. They will not be isolated when business requires you to drive away in the morning.

Two-car ownership has come fast in America—300,000 two-car families in 1920; 3,000,000 today. The rate of increase will be even greater in the future, for the benefits are so great. The second car keeps mothers and children together, makes household purchasing more economical, enlarges in every way the field of opportunity.

Keep your present car when you buy your new General Motors car. The GMAC Plan of payments makes this convenient to do.

Lyon & Healy introduces to Chicago

Press the button and listen!

Your Most Thrilling Experience in Radio

No Logging... No Tuning-in... No noise between stations

ALWAYS in the vanguard of modern developments in the world of music, Lyon & Healy now presents the biggest radio sensation since the introduction of the All-Electric set.

Automatic Tuning—the newest triumph of Zenith Radio—ends the trial and error method of bringing in stations. Now you just press a button and listen! No hunting for your station—no logging. A touch of your finger brings the wanted broadcast instantly—clear and exact without the slightest variation.

You flash from one station to another in a split second—without effort—without even looking at the dial. You set the automatic yourself for your favorite stations—change them in a jiffy whenever you want to—and you can still log with the dial if you wish. A six-year-old child can provide a complete program on the Zenith Automatic! There is no noise or interruption between stations—no "scene shifting" to annoy your guests and mar their pleasure.

Come in and watch the "9 stations in 9 seconds" demonstration. It shows the wonderful simplicity and convenience of this latest radio miracle. You want the most modern and up-to-date radio for your home—here it is. To make sure of early delivery, order yours today.

WHY HAVE

### IHUUSANDS OF STORES produced.

in Chicago suddenly taken on the selling of this famous five-cent cigar

... BECAUSE it is the greatest five-cent cigar ever

Because only recently has production sufficiently met the demand for this famous cigar to enable its coming to Chicago.

But it's here! Here to stay! Here to demonstrate the biggest cigar-buying power a nickel ever hadbefore or after the war. Here to prove that a fivecent cigar, when made as Bayuk makes it, can give you everything any cigar can give you, namelytrue, rich, mild tobacco flavor without pungent bitterness or insipid flatness.

For this unusual cigar contains no under-ripe top leaves of the tobacco plant. No over-ripe bottom leaves. But only fragrant fully-ripe middle leavesage-mellowed and blended into the most satisfying roll of smoke enjoyment any man can wish for.

Try Havana Ribbon. There's only a nickel-and a step or two to the nearest cigar counter-between you and a new idea of quality and value in a fivecent cigar.

Havana Ribbon comes to you clean and fresh, with aroma fully preserved, and pocket breakage reduced to the minimum. . . . It's foil-wrapped.

All for five cents! Imagine!

Legal Investment for Savings Banks and Trust Funds in the State of Kentucky

The Louisville Bridge Commission is a municipal corporate instrumentality, created by an act of the General Assembly of the State of Kentucky, with authority for construction of the bridge, issuance of bonds and collection of tolls sufficient for maintenance, operation, interest on bonds and sinking fund sufficient to retire the bonds at or before maturity.

These bonds are to be issued by the City of Louisville (estimated population 340,000), through its Bridge Commission, and will be signed by the Mayor, City Comptroller and Chairman of the Bridge Commission. The Bridge Commission has executed a trust agreement with the trustee for the protection of the bondholders. The bonds, in opinion of counsel, are obligations of the City of Louisville payable solely from bridge tolls and other bridge revenues. The authorizing act requires that the rates of toll shall be so fixed as to provide a fund sufficient to pay the interest and principal of all bonds issued under authority of the act and to provide an additional fund to pay the cost of maintenance and operation. The bridge will be insured at all times under an "All-Risk Coverage" policy. Performance bonds in the full amount of all contracts in excess of \$500, or marketable securities to secure completion and performance are required to be furnished.

The bridge will span the Ohio River between Louisville, Kentucky, and Jeffersonville, Indiana, and will have a roadway capable of carrying four lanes of traffic. It will connect important highways to Cincinnati, Lexington, Indianapolis and other cities, meeting a need which has existed for several years. Based on estimates made by traffic engineers, during the first five years of operation there should be available, for interest, average annual net earnings, before depreciation, equal to 2.17 times the maximum annual interest charges on this issue. Estimates have also been made for each year up to and including 1948, at which time it is anticipated net earnings will equal 3.94 times interest charges.

The operation of the sinking fund is expected to retire this issue within twelve years of the opening of the bridge for traffic. If bonds cannot be purchased below the call price it is provided in the trust agreement that, whenever, after 1930, the sum remaining in the fund forty days prior to an interest date (after reserving the amount of interest due on such date) is sufficient to retire \$50,000 or more of bonds, the trustee shall issue a call by lot, at the redemption price, for such amount of the bonds. The bonds are callable on any interest date after 1930; at 105 and interest on or before November 1, 1933; thereafter at various reductions in the redemption price.

> We recommend these bonds for investment and shall be pleased to send a circular describing the issue in detail.

### "I Want My Family To Be Carefree"\_

"TIELP me plan my estate," he told one of our Trust Officers, "so that it will not put my wife and family into business. I don't want them tied down to the burden and anxiety of watching investments and worrying over market conditions. I want them to be carefree-able to go when and where they will.

"Above all, I want my wife to have an assured income so that she can work out our plans for the education and the future of the children unhampered."

We explained the Insurance Trust Plan to him-how this old and conservative Bank, as trustee, receives the insurance principal directly from the insurance company and invests it for a safe, sure income.

The following information is summarized from the audits of Masses. Murphy, Lanier & Quinn, Public Accountants, and a letter from Mr. A. S. Lipman, President of the Company, copies of which may be had upon request:

The Company operates a chain of sixteen stores serving clothing and apparel needs of the entire family. These stores, all of which are well established and doing a profitable business are located in the following named cities: Milwaukee, Wisc. (three stores); South Bend, Ind.; St. Paul, Minn.; Indianapolis, Ind.; New Castle, Pa.; Sharon, Pa.; Cumberland, Md.; Clarksburg, W. Va.; York, Pa.; Pottsville, Pa.; Reading, Pa.; Easton, Pa.; Allentown, Pa., and Mariana Barriera Barrie

History:

The business was started eight years ago as a single unit in New Castle, Pa., with the initial capital of fifteen thousand dollars. The present chain which has been built up largely through earnings has been continuously under the direction of the present management.

Giving effect to present financing the balance sheet indicates an exceptionally strong financial position. Total current assets amount to \$1,588,009.30. Total liabilities other than capital are \$198,785.45. Current assets including current assets amount to \$1,588,009.30. Total liabilities other than capital. The Company has no bonds or other cash, therefore, are approximately eight times all liabilities other than capital. The Company has no bonds or other funded debt. Valuable leaseholds and good-will are carried at the nominal figure of \$1.00. Each share of Cumulative funded debt. Valuable leaseholds and good-will are carried at the nominal figure of \$1.00. Each share of Cumulative Preference Stock is represented by approximately \$35.00 per share in cash and other net quick assets. The net sound value of furniture and fixtures is far in excess of the figure carried on the statement.

Average annual net earnings of the stores owned by National Family Stores, Inc., after all charges and after setting up adequate reserves for the past three years were \$162,858.69. The proceeds of the present financing will enable the Company to effect certain definite savings through non-recurring charges. Adjusted to these savings and to the present pany to effect certain definite savings for the fiscal year ending January 31, 1928, were \$214,380.08, or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08, or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08 or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08 or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08 or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08 or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08 or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08 or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08 or 2½ budget of administrative expenses, earnings for the fiscal year ending January 31, 1928, were \$214,380.08 or 2½ budget of administrative expenses, earnings indicate an increase of approximately 15% over the corresponding period the first quarter of the current year earnings indicate an increase of approximately 15% over the corresponding period the first quarter of the current year earnings indicate an increase of approximately 15% over the corresponding period the first quarter of the current year earnings indicate an increase of approximately 15% over the corresponding period the first quarter of the current year earnings indicate an increase of approximately 15% over the cor

Advantages in Having a Trustee

**COMMERCIAL GRAIN STOCKS** 

You could indicate in your will how much support to afford, to whom, for how long, also when and under what conditions capital sums should be paid over.

You could give the trustee as much discretion as you wish, enabling him to meet unforescen emergencies.

If there is life insurance included, there is a double advantage in having both it and the estate trusteed, so that the heirs may have one source of income, instead of different amounts at odd times from various sources. The entire property thus has the benefit of unified control.

#### Would They Have to Move Out If You Were Taken?

JOU may think not, with the amount of I property and life insurance you have. And still such an eventuality is not uncommon, even among those who are well provided. Wealth is fleeting unless securely anchored. The well-to-do widow easily may lose her inheritance.

Why not protect your heirs by trusteeship of the funds you leave them? That would safeguard the principal and assure income.

And it would be a great relief to your widow, even if financially experienced. She would have no worry over investments.

This company has specialized in trust service for nearly forty years; it has had wide experience with a great variety of family situations; might be able to suggest ways and means of affectively providing for yours. Consultation with you or your attorney is cordially invited.

#### Strauss Conducts Latest Opera on 64th Birthda

Chiese Tribune Frees Service.]

VIENNA, June 11.—Richard Strausscelebrated his sixty-fourth birthday by
giving the first Vienna performance
of his latest opera, "Egyptian Helena.", with Mme. Maria Jeritza in the
title rôle. The opera emphasizes the
phase of Helen of Troy's life after
Menelaus, who, when taking the beauty home, was shipwrecked. The husband's futile anger over the love affairs of his beautiful wife motivated
the book. Although the music is considered out of the ordinary, it is an
inadequate climax to the career of
such a famous composer as Strauss.
The scenery is gorgeous.

#### Time to Prevent Cutting Remarks Is in Childhood

ast, for a sister.
"Do all young daughters think of seir mothers as poor old ladies?" ahe squires. "I mean the girls of the bung crowd just growing up? And them as such?"

I don't suppose many young women in their teens think of their parents exactly as their contemporaries. It's hardly fair to expect them to. The most that parents can hope for in his or any other day, for that matter,

bretty deliberately, and with intent to hurt. But, happily, they are a comparatively small element.

What to do with the young unmanageables is something, I fear, that should have been begun many years carlier. They should have been taught to consider other people's feelings, also respect for their elders. Perhaps not because elders are elders, but because their conduct demanded it.

The remark of the 17 year old is trivial in proportion to the hurts that her age can deliver if it is in a mill-tant mood. But it does give rise to the surmise that perhaps mother, in spite of her tender maternal years, isn't as young mentally as she thinks she is. Maybe in her reactions to her daughter's confidences, her ambitions, her plans, she is poor old mother. One can be very, very set in her views at 37.

The bride is a member of the Junior league.

DORIS BLAKE ANSWERS

Toe Late Now.

"Dear Miss Blake: I was very rude to a fellow I like fairly well, and did not apologize. Later I met him and he asked me to apologize, which I refused to do. However, we made a date which he did not keep. Is it my place to call him up and apologize, as I am sorry now?

ELAINE."

It's too late now, Elaine. He made to hurt you as you had hurt him. I'm sure you'll be more considerate of the feelings of others in the future.

It brought one mother up with a start. She married at 18, so is properly entitled to her 17 year old. But she had an idea that she was one of Mr. and Mrs. Calvin Fentress of Hubbard Woods. The ceremon of those very young mothers apt to be mistaken for her own daughter; at mistaken for her own daughter; at pelps Stokes in the presence of small company of relatives, intim friends and out of town guests.

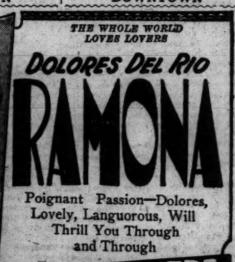

The bride was attended by two of her classmates at Wellesley, class of 1927, Miss Esther Wurst of Buffalo, and Miss Catherine Roberts of Johnstown, Pa. The best man was Calvin Fentress Jr.

Miss Olyve Graef, daughter of Mr and Mrs. Harry Campbell Graef, was married this afternoon to J. Ballard Moore of Chicago, a former Washing-tonian. The ceremony, arranged on Among the younger women there is an element that assumes a sort of antagonistic attitude toward those who attempt to direct them or discipline them. They know their most cutting comeback to an objection on the grounds of conduct unbecoming a young woman is to relegate the parent to an old lady shelf. They do it prefity deliberately, and with intent to pretty deliberately, and with intent to hurt. But, happily, they are a comparatively small element.

Ruffled Frock Is Constant Visitor

NEW YORK.—[Special Correspondence.]—Ruffly speaking, there must be at least one million phases of ruffled at least one million phases of ruffled summer frocks. One associates this form of adornment first of all with the printed crepes and chiffons in which Patou made such a brave showing at his spring opening, but they can be "out of print" just as well. For example, the original Rolande model which we illustrate today was originally in red georgette, but we show it for you here in a figure crepe exploiting black figures on a white ground.

Now the distinguishing feature of

ground.

Now the distinguishing feature of these ruffles of today is that they run around so much. Quite as active as any commercial salesman, they dive up from the skirt to the bodice and vice versa. Often they form a bolero effect and when they don't do this they are partial to jabots. Thus, one of the familiar models from overseas which I am showing this week runs two plaited cascading jabots from the neckline downward to meet the plaited flounces of the skirt.

Further variety is given the ruffled landscape by the trick of making some of the ruffles curve upward and

with a decided flare in the direction of modern art, made their appearance yesterday at the annual exhibition of the Artistic Lighting Equipment association which is is progress the entire week at the Hotel Sherman.

The fashionable woman and the up to date business man now find artistic lighting as much a necessity to their offices and places of abode as they find their favorite type of automobile and the furniture and art objects best suited to their individual needs, according to Granville P. Rogers, manager.

In the exposition, which has brought close to 10,000 visitors from all over the country, the trend toward modern art is particularly noticeable in the prismatic beauty of a crystal chandeller reminiscent of earlier American grandeur. The modern touch has been brought out with fantastic dangles and huge "blobs" of colorful crystal.

it.

Incidentally, I hope you managed to get your children into the woods this spring early enough to see the first spring flowers that appeared. There is no other time, I think, that the magic of the life that has been sleeping all winter in the earth makes itself felt as it does then. Children can get some realization of the miracle can get some realization of t is no other time, I think, that the magic of the life that has been sleeping all winter in the earth makes itself felt as it does then. Children can get some realisation of the miracle of how life goes on and on when they see a spring beauty or an anemone springing up out of the dark leafy mold. There is a thrill quite like nothing else when they find their first columbine floating on its thread like stem near a natural rockery.

Then, too, besides the plant it there are young things all over it there

Not that late spring or June is too late to get this feeling of the earth waking up again, particularly in certain parts of the country to which these articles go. June is a glorious month for children to have tastes of the country—or to have it continuously. Then it has a freshness, a joy- [Copyright: 1928: By The Chicago Tri

BY ELMER DOUGLASS.

We were taken far away from he et evening. First, there were the paies orchestra in a Brasilian prosum from New York, through W-G-N, 10 to 8:30. Symphonic music of Latin-merican origin, an unusually large attribution of piano music, and hot panish-Mexican-Brasilian jass music gether made this a colorful program, the seemingly enough diversity to tisty any enthusiast of this style of units.

Bellaire, O., June 11.—(P)—Two union miners on strike were shot and seriously wounded here today. William Baker said that while driving a truck for the company operating the Webb Coal mine, which employs nonunion workers, a crowd of miners insulted him and he fired five times in the crowd.

Besidents of the terday appeared before the commerce commission to testify that a proposed bus line of the Chicago surface lines along Central avenue from Columbus park north to Milwaukee avenue and thence to Forest Glen is necessary for the community. The motor coach company contends such a program would increase congestion on street car lines. No decision was given at the hearing.

Which anecdote hurts my feelings a bit, and does not tell anything about gooseberries, but this author injects nothing except the above phrase into the subject of pies that are glorious and pies that are glorious and pies that are "masty." He abhors rhubarb which shows that it has been wretchedly cooked for him—not an unusual thing. Goseberries are sour, and soma people in cooking them seem to be envious of allowing them the necessary sugar. But corn sirup—really costing more, usually—and seemingly less of it, can be used acceptably.

SECOND MORTGAGE LOANS

A little over two years ago this same institution was instrumental in providing facilities for another phase of the family running business. We were almost abocked at the high rates which were charged for second more gaze loans on homes, and we were coulty shocked at other conditions which were accepted as a part of the conditions which were accepted as a part of the conditions which were accepted as a part of the conditions which were accepted as a part of the conditions which were accepted as a part of the conditions which were accepted as a part of the conditions of the conditio While we have not as yet loaned \$50,000,000 on second mortrages, we have already loaned second mortrages, we have already loaned second mortrages, we have already loaned second in which we have been intraged in this field. We are hopeful that as time goes on the record established by The Chicaso Morris Plan Bank as agent in account mortrage development will be quite as notable as the record which has been established in the making of industrial loans.

We will be giad to meet home owners in Cook, Lake and Dd Page counties. We will make least to you for any of the counties of the counties of the counties of the counties. The appraisals will be made bromptly and narpments will be made to fit the home owners income, and the rates charged will not be out of sight. At the present time we charges 6% interest plus a commission which works out as follows:

\$35.00 per \$1,000 for 1 year 65.00 per \$1,000 for 2 years 90.00 per \$1,000 for 3 years The Chicago MORRIS PLAN BANK
